

SOFTWARE AND E-COMMERCE

INTRODUCING ALFA PRO IT

ALFA PRO IT develops all-round solutions for the horticultural industry. These practical, all-round automation systems are there to help you keep your hands free so that you can concentrate on your core business. Not only do we provide optimum functionalities for purchasing, (mobile) sales and administration, we also offer solutions for all modern forms of e-commerce (app, webshop, virtual marketplace, cloud computing, etc.) – all under one roof!

ALFA PRO IT specialises in the following:

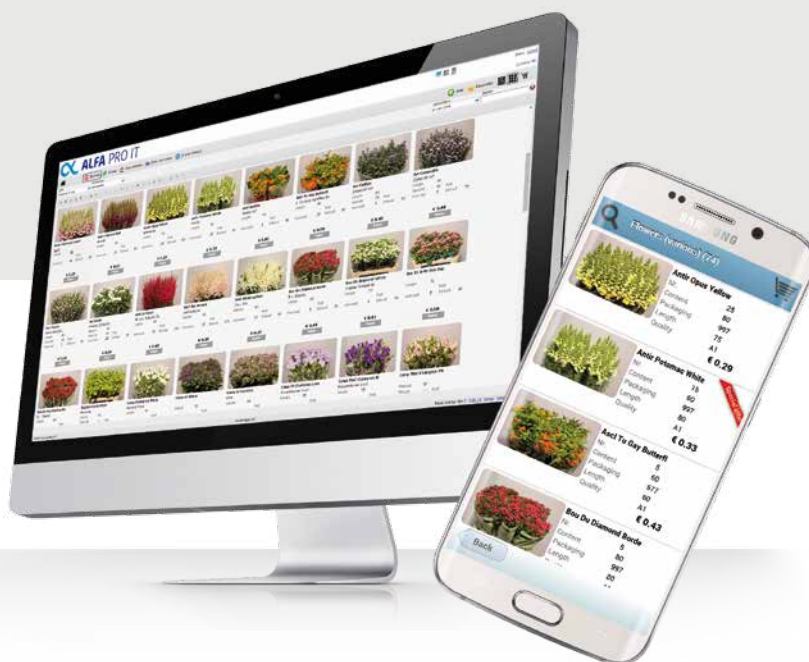

- Affordable software for the entire supply chain
- Apps, webshops and virtual marketplaces
- Cloud computing
- Hand-held terminals and flightcase systems
- PCs, printers and networks
- Barcode equipment
- Systems for management information

We offer:

- Service: Service round the clock, 7 days a week
- Our employees have their roots in your industry
- If our helpdesk can't assist, we'll come to you
- Remote support
- Continuity: we've been around for more than 25 years
- An Independent AlfaPro Users' Association

Our roots are in the flower and plant industry, where we developed the modular AlfaPro, which has proven of outstanding value in many other fresh produce markets (fruit and vegetables, fish, meat and dairy). In short, in situations where speed is of the essence, and where there is an absolute necessity for efficient stock management.

Over the years, ALFA PRO IT has expanded to become a medium-sized business, actively serving more than 750 clients at home and abroad. We identify problems, provide advice to find the right solutions and help bring about systems and programs that are dovetailed to the everyday running of a business. Customers can count on our round-the-clock support.
